Hello Everyone! This snow has altered some plans for early spring rides and camping. At least Joe was able to find a way to work in a ride up the Bayview for lunch!

This month includes two trainings, we will get a sign-up on the web site posted. One for GPS use and one is Backcountry Travel Preparedness. There will be several certification trainings for both ATV's and motorcycles offered by Kootenai Country Backcountry Deputies and the Volunteer Search & Rescue (VSAR). We will share when these dates are available. For now, Idaho Department of Parks & Recreation (IDPR) has some trainings scheduled, see here: <https://parksandrecreation.idaho.gov/activities/atv-motorbike>

April will be our Annual Meeting when we will finish nominations and hold elections for Officer and Board positions. Also a reminder that membership renewals are due in April, hence we have included the Membership Application.

NIATV wants to remind all members and guests that we follow the State and Federal regulations as they pertain to our sport. For all riding on public roads, this includes Forest Service roads, machines need to be registered, carry liability insurance, and all riders under the age of 18 are required to wear helmets. We have put together the following list for you to further explore some of the rules we all need to follow:

Maintenance Tips

Pull your winch cable all the way out and inspect for damage. Rewind the cable with slight tension, weaving back and forth on the drum for even coverage.

Check your shovel, shackle(s), snatch block, heavy gloves, tree saver etc. Replace/repair as needed now.

Everybody in the group doesn't need to carry every thing but you need every thing within the group.
